

AIR TERMINAL SERVICES (FIJI) PTE LTD

EXPRESSION OF INTEREST – PROJECT CONSULTANT

Air Terminal Services [Fiji] Pte Limited (ATS) is the region's leading ground handling provider of Passenger, Line Maintenance, Cargo and Ramp Handling, Cargo Sales, Cabin Cleaning and In-flight Catering Services. With operating experience since 1981, we provide excellence in service through competent personnel with quality, safe and efficient practices; in line with the best interests of our customer goals.

ATS is an IATA - ISAGO registered ground service provider including ISO 9001 QMS and ISO 22000 Food Safety Management System certified. We have a dynamic and robust Integrated Aviation Management System (iAMS). In delivering our services, we aspire to continuous improvement of our Quality, Safety, Security and Efficiency.

ATS is seeking experienced and qualified consultant to oversee the construction of a modern Inflight Catering facility. The facility aims to elevate our inflight experience to new heights, ensuring unparalleled quality and efficiency in catering services.

Project Overview:

The project entails the design, construction, and outfitting of a modern inflight catering facility compliant with industry standards and regulations. The facility will be equipped to handle the preparation, packaging, and distribution of inflight meals for international flights.

Consultant Responsibilities:

- The selected consultant will be responsible for providing expert guidance and oversight throughout the project lifecycle, including but not limited to:
- Develop comprehensive tender and procurement documents for respective contractors
- Conducting feasibility studies and site assessments
- Developing detailed project plans and timelines
- Develop detailed designed documentation
- Assist with design, review and engagement of selected engineering firms and consultants
- Managing procurement processes for construction materials and equipment
- Supervising construction activities to ensure adherence to quality and safety standards
- Coordinating with architects, engineers, and contractors to resolve any issues or challenges
- Monitoring project progress and budget utilization
- Providing regular reports and updates to stakeholders
- Assist with project handover, staff training and scheduled maintenance plans.

Qualifications and Experience:

Interested consultants should possess the following qualifications and experience:

- Proven track record in project management, particularly in construction projects within the aviation or hospitality industry
- Expertise in inflight catering [with applications to Food Safety Management System flow] facility design and construction
- Knowledge of relevant regulatory requirements and industry best practices
- Strong communication and interpersonal skills
- Ability to work collaboratively with multidisciplinary teams
- Demonstrated ability to deliver projects on time and within budget

Submission Guidelines:

Consultants interested in participating in this project are invited to submit their proposals by **30th June 2024**. Proposals should include the consultant's company profile, relevant experience, proposed approach to the project, and a detailed budget estimate.
